Northwest Area Goals If Elected:

My goal would be to keep myself available to the membership and to keep the communication lines open between our members and the Executive Board. This would keep our rallies and other programs going. When the members have an input into our programs, it will only make the Northwest Area stronger. This will also make better chapter leaders and create leaders for the future. I will also keep in touch with the chapters and chapter leaders by personal contacts, emails and by attending chapter rallies. This shows that the Executive Board cares and creates positive attitudes with our membership.

If I am elected Vice President, I will do my utmost to carry out my duties and keep the integrity of the Executive Board as it is today.
